1 Button Functionality

Selecting a map enables buttons based on your role permissions:

New

- Create a new map

View

- Read only access to the map content;
- Allows print to PDF

Modify

- Edit content of the selected map

Workflow

- Provides graphical view of workflow
- Supports change state (based on your role)
- View history and comments

3 Aggregate Mapping Reports

Five reports available regarding ALL maps in CMS via top left drop down report selector:

- Count by current state or workflow
- Workflows created, approved or published by month (across 1, 2 or 3 years)

Dynamically updates based on Filter choices

Export to PDF (graph view) or CSV (table view)

Mapping Components

Each Map has five key components:

A Registration

- Name, Organisation and Description – added on creation, editable during draft.

B Linked Programs/MMS and Courses

- Added on creation, add or delete during draft.

C Map Legend - Weighting

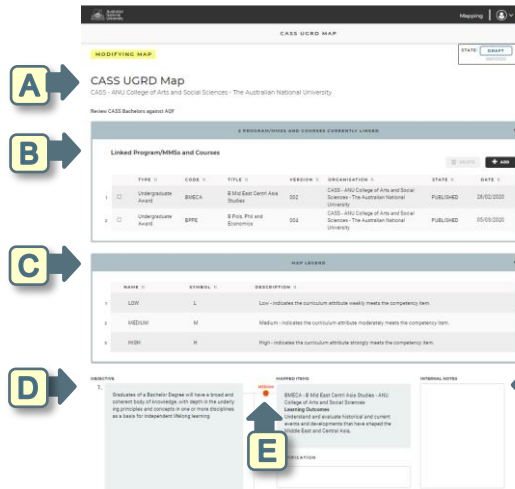

- Name, Symbol and Description editable

D Mapped Items

- Link between S&K table Objective and 1 or more Curriculum item Learning outcomes or Indicative Assessments; Justification and Internal Notes (optional)

E Weighting

- Added after map link creation, selected from legend

4 Individual Mapping Reports

Two reports available for each individual map

- **Heat Map Report** - Overall view of mapping (coverage or highest value), see impacts of change, exportable to PDF
- **Standard Report** - Map details and weighting, exportable to PDF. Similar to View screen, but omits the internal notes

Tips & Tricks

Why can't I edit my Draft Map?

- Check that the S&K table is still in an APPROVED state. Only APPROVED S&K tables can be used in Mapping
