NEW TEMPLATE VERSION AVAILABLE   CLOSE

i Depending upon your role and access permissions, the PDF will only include the fields that are visible to you. If a section has no visible fields, it will appear collapsed.

---

1 2 CMS Export Functionality

💡 Useful for viewing a PDF of the selected curriculum item on screen NOT for printing

With Tracked Changes:

👁 VIEW

1 • Open curriculum item (Class Summary, Course, Program or MMS) in View Mode

⬚ EXPORT

2 • Click Export Button (will include tracked changes by default)

• Save to PDF or it will automatically save to your download folder

Without Tracked Changes:

CHANGE TRACKING ▼ ⬚ 4 • Uncheck the Change Tracking flag before clicking the export button.

---

1 3 Use Browser to Save to PDF (Windows 10 only)

💡 Useful for saving a PDF of the curriculum item to print showing change tracking (if applicable)

With Tracked Changes:

👁 VIEW

1 • Open curriculum item (Class Summary, Course, Program or MMS) in View Mode

3 • Expand all sections

[Ctrl] + [P]

• Select CTRL + P on keyboard
• Select *Microsoft Print to PDF* or *Save as PDF* in Print Window
• Click SAVE, select destination and Click SAVE.

Without Tracked Changes:

CHANGE TRACKING ▼ ⬚ 4 • Uncheck the Change Tracking flag before clicking the export button.

💡 Modify mode can also be used to generate a PDF using the Browser. This mode will show the borders and controls e.g. buttons around each field for data entry.
