1 Background

The Casual Sessional Academic (CSA) timesheet solution has been designed to provide a mechanism for HR Administrators to upload contract information, in the form of planned T-code units and associated budget, and to facilitate the submission, approval and payment of CSA timesheets via workflow.

1.1 Key Features

- A bulk upload feature for HR Administrators to create the timesheet data, setting budgeted amounts of **T-Codes** and **Element 116** (CSA Lump Sum) for a specific period.
- Contract page for Contract Pattern page will track consumption of budgeted T-Code and Element 116 allocations.
- Casual Sessional Academics (CSA) access their previous and current fortnightly timesheets via HORUS, enter actual instances of T-Codes worked and submit for approval.
- Supervisors receive periodic notifications to approve timesheets. They can log in to HORUS, review and approve timesheets.
- Approved timesheet entries will be automatically processed via the same PI Upload process as Casual Professional Timesheets.
- The system prevents CSAs exceeding total budget of T-Codes.
- Amendments to contract data where applicable can be managed by HR Administrators.
- Tracking of expenditure of units by T-Code, and dollars.

1.2 Scope

The CSA Timesheets solution covers the submission and approval of timesheets for CSAs and subsequent automated payment.

						1				
Budget and Forecasting	Academic Allocation	•	Timetabling	•	Engagement	•	Timesheets	•	Payment	

The following practices are out-of-scope of the project and will continue to be handled according to existing business practices:

- Course budgeting/forecasting
- CSA allocations
- Timetabling
- Engagement of the CSAs, including contracts.

1.3 Timesheet Cycle

The CSA timesheet cycle is the same as the Casual Professional Timesheet cycle.

1.3.1 Cut-off

Details can be found at: <u>https://services.anu.edu.au/information-technology/software-systems/hr-online-remote-user-system/timesheet-approval-cut-off</u>

2 Glossary

Term	Description
Budget	The budgeted number of units per T-Code (or lump sum) for a
	particular course for the period covered by the Course Start Date
	and Course End Date.
Casual Sessional Academic	A casual sessional academic staff member. Job Code = ACSA
Contract	A contract for services that the CSA is engaged under. Describes
	the contract start and end dates and totals for each applicable T-
	code. This data is used to pre-populate the CSA's timesheets.
Course	A course offered by the University for which the CSA has been
	engaged to provide their services.
End Date	End date of the CSA contract which may or may not correspond to
	the semester dates.
Enterprise Agreement	The Australian National University Enterprise Agreement 2013 -
	2016
GL	General Ledger. Consists of Fund, HRMS Department, Project
	codes.
HR Administrator	A system user with the system role of ANU_HR_ADMIN – typically
	a HR practitioner or school manager in the areas
HRMS	The ANU Human Resource Management System.
HR Systems Administrator	A member of the HR Systems team with the system role of
	ANU_HR_SYSADMIN
Job	A job record in HRMS. Each CSA has an employee ID /
	Employment Record combination for each job they are paid for. A
	CSA can have more than one job. Additional jobs can be Casual
	Sessional Academic jobs or some other type of job.
Manager	The person responsible for the day-to-day supervision of the
	employee.
PI	Positive Input
Start Date	Start date of the CSA contract which may or may not correspond
	to the semester dates.
T-Code	The earning elements by which CSAs are paid (other than lump
	sum payments)
Timesheet Period	A two-week period, commencing on a Monday. CSA timesheet
	periods are the same as those for casual professional timesheets.
Week	A week for the purposes of CSA timesheets is Monday to Sunday.

3 Interface Overview

3.1 CSA Contract Data

The contract page contains the contract data used to populate the CSA's timesheet. It can be set up manually (see Section 5) or via the bulk upload process (see Section 4).

Total Budgeted Units	The maximum number of units of a specific T-code that can be
	submitted and approved for payment during the course duration.
Units Worked this Period	The actual units worked by T-code (or, for CSA Lump Sum
	payments, actual dollars acquitted) during the timesheet period.
	Note: This refers to <i>units,</i> not necessarily <i>hours</i> . The nature of
	these units depends on the T-code. For example, for a basic
	lecture, one unit is equivalent to one hour of delivery and two
	hours of associated working time; marking should be entered as
	actual hours of marking performed; while lump sum amounts are
	actual dollars acquitted.
	Editable by CSA and Super user only.
Units Remaining	For each element: Total Units (budget) - total paid – total elements
	approved - total units worked this timesheet period

Status	 New – New timesheet. Row never saved or submitted. Submitted – Submitted for approval by CSA Saved – Timesheet saved by CSA Rework – Timesheet pushed back by manager Approved – Timesheet approved by manager Cancelled – Timesheet cancelled by CSA Processed – Timesheet PI Upload process has successfully run on the timesheet

4 Upload Contract Data

This step describes how to upload your CSV data file to create the casual academic contract data.

For more detail on how to create the CSV properly and troubleshooting the upload process, please refer to the *Academic Casual Timesheets – Bulk Upload Guide* (at: <u>https://services.anu.edu.au/information-technology/software-systems/hr-online-remote-user-system/timesheet-training-resources</u>).

4.1 Validate your data

It is advisable to run the *Only Load for Validation* process to validate data prior to running the process in update mode.

1. Navigate to: Global Payroll & Absence Mgmt > Payee Data > Assign Earnings and Deductions > Bulk Upload (CSA Contract)

Bulk Upload (CSA Contract) Enter any information you have and click Search. Leave fields blank for a list of all values.

- 2. Do one of the following:
 - If you already have a run control, enter the name and click **Search**.
 - If you have not previously set up a run control, click the Add a New Value tab:

10. Click Run.

Result: You will need to <u>review any messages</u> and if there are any errors, correct your data.

4.2 Review messages

After validating your file, you need to check the messages to ensure that the data is correct format.

1. Go to Process Monitor:

5 Add Contract Data

This procedure is to create add contract data for a CSA without using the Bulk Upload mechanism.

Navigate to: Global Payroll & Absence Mgmt > Payee Data > Maintain Timesheets > CSA Contract
 Click the Add a New Value tab.

Casual Academic Co	ntract
Find an Existing Value	Add a New Value
Empl ID: Empl Record: 0 Course ID:	Q.
Add	

3. Enter the employee and course details and click **Add**. **Result:** The *New Contract* page is displayed.

- 4. Enter the:
 - Contract Start Date. Note: Where possible, the contract start date should be before or equal to the start of a timesheet period. For example, if the CSA is expected to submit units for the timesheet T20160828, the Contract Start Date should be set to 15/8/2016 (or earlier). The system will prevent the creation of a new contract that overlaps with timesheets belonging to a previous contract (for the same course)
 - *Contract End Date.* Note: The contract end date should allow enough time for any marking that may take place at the end of a semester.
 - T-code, by using the *Element* lookup. Click the plus icon 🛨 to add a new row for each T-code.
- 5. Review the *Effective Date*. This defaults to TODAY. You must change the effective date if it is later than the *Contract Start Date* or the CSA will not be able to access timesheets prior to this date.
- 6. To override the default GL Distribution, click the *Override GL Distribution* link. On the GL override page, enter the additional GL details as required and click **OK**.
- 7. Click Save.
- 8. If the casual academic staff member has more than one CSA contract in effect, repeat the above steps to add all of their CSA contracts in the HRMS.

6 Modify Contract Data

The reasons for modifying existing contract data can include adjusting budget amounts due to absence. For example, if a CSA is absent and another CSA fills in for them during the absence, to ensure the overall budget for the course remains the same, you may want to reduce the budgeted units for the CSA that was absent. The substitute CSA will need contract data in order to be able to enter attendance via HORUS – see **Section 5**. **Note:** The system will prevent you from changing contract start/end dates if the date change orphans existing timesheets and it will also stop you from reducing budgeted units below the total units already entered in existing timesheets.

6. Review the *Effective Date*. This date determines when the CSA can see the changes you make. If you increase Budgeted Units or add a new T-code, make sure the effective date falls within the relevant timesheet period (preferably the first day of the relevant timesheet period).

Important: If there are any unapproved timesheets for timesheet periods predating this *Effective Date*, negative Units Remaining may result, which prevents the timesheet/s from being approved. In such circumstances, these timesheets should be approved *before* you make your change or your Effective Date should fall within the timesheet period of the earliest of these timesheets.

- 7. Modify as required.
- 8. Click Save.

7 Create New Timesheet

Note: You must create a valid contract for a CSA before you can create a new timesheet for them.

- 1. Navigate to: Navigate to: Global Payroll & Absence Mmt > Payee Data > Maintain Timesheets > Administer CSA Timesheet
- 2. Click the Add New Value tab

13.5 Element

0,0,E,Invalid Timesheet Code 21,,

All Element Names entered must be valid elements. In the above example, 21 was entered but the correct element name is *T*21.

13.6 Overlapping Contract

The system prevents you from adding new contract data for a specific Empl ID/Rcd and Course where it overlaps with timesheet periods belonging to an existing course. In such cases, you will see an error such as:

```
Component Interface Messages:
0,0,M,Adding new contract for 3965528 0 RUSS1900,,
25610,24,E,Overlap with existing contract for T20160925. Earliest available start
date is 24/10/2016.,,
```

13.7 Orphan Timesheets

If you attempt to change an existing contract such that existing timesheets will no longer fall within the Start/End Dates of the contract, you will receive an error:

```
Component Interface Messages:
0,0,M,Updating contract CSA0001,,
25610,22,M,Timesheets exist for this contract prior to 11/04/2016. Start Date
cannot be later than the 14/03/20,,
```
