

Lecturer's EchoVideo Interface

Below are the different sections of the EchoVideo interface:

1. The lecture recordings that are related to your course, most of which are scheduled recording if the lecture times are registered with Timetabling
2. This is where the uploaded recordings, copies of the lecture recording can be stored
3. When these two icons are black, it indicates that the recording is available and the resource, such as Powerpoint, has been uploaded

4. When  is pink, it indicates that there are no resource uploaded, and you would be able to upload a file

5.  is the icon which if you click on, will provide options on handling the recording, such as creating a copy, editing the video, and making the recording unavailable to students
